SUBSIDIARIES
CONSOLIDATED FINANCIAL STATEMENTS AND
INDEPENDENT AUDITORS' REPORT
DECEMBER 31, 2022 AND 2021**

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Shareholders of JOCHU TECHNOLOGY CO., LTD.

Opinion

We have audited the accompanying consolidated balance sheet of JOCHU TECHNOLOGY CO., LTD. and subsidiaries (the “Group”) as at December 31, 2022, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, based on our audit and the report of other auditors (refer to the Other matter section), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2022, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audit in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2022 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2022 consolidated financial statements are stated as follows:

Key audit matter – Existence of sales to specific customers

Description

There is a significant audit risk associated with revenue recognition in accordance with the auditing standards. The Group's sales revenue is concentrated mainly in its top ten customers. As sales revenue from top ten customers is material to the consolidated financial statements for the year ended December 31, 2022, we considered the existence of sales revenue from top ten customers as the key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

1. We obtained an understanding, assessed and tested the effectiveness of the design and implementation of the internal control system related to revenue recognition.
2. We obtained details of sales revenue from top ten customers for the year ended December 31, 2022, sampled the related transactions against the original orders, delivery notes, invoices and other related documents and verified the amount to ensure the existence of revenue.
3. We obtained details of sales returns and discounts from top ten customers after the balance sheet date, and sampled the sales returns and discounts against related documents and examined the reasonableness of the reasons for returns and discounts.

Other matter – Scope of the audit

The consolidated financial statements of the Company as at and for the year ended December 31, 2021 were audited by other auditors, whose report dated February 25, 2022 expressed an unqualified opinion with emphasis of matter paragraph relating to the accrual of income tax expense for the year ended December 31, 2020.

Other matter – Reference to the audit of other auditors

We did not audit the financial statements of an investment accounted for under the equity method which were audited by other auditors. Therefore, our opinion expressed herein, insofar as it relates to the amounts included in respect of this associate, is based solely on the report of the other auditors. The balance of this investment accounted for under the equity method amounted to NT\$8,442 thousand, constituting 0.18% of the consolidated total assets as at December 31, 2022, and the comprehensive income recognised from the associate accounted for under the equity method amounted to (NT\$2,751) thousand, constituting (14.89%) of the consolidated total comprehensive income for the year then ended.

Other matter – Parent company only financial report

We have audited and expressed an unqualified opinion on the parent company only financial statements of JOCHU TECHNOLOGY CO., LTD., with an other matter paragraph, as at and for the year ended December 31, 2022. The parent company only financial statements of JOCHU TECHNOLOGY CO., LTD. were audited by other auditors, whose report dated February 25, 2022 expressed an unqualified opinion with an emphasis of matter paragraph relating to the accrual of income tax expense for the year ended December 31, 2020.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

JOCHU TECHNOLOGY CO., LTD. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. History and Organization

Jochu Technology Co., Ltd. (the “Company”) was incorporated in June 2000 under the provisions of the Company Act of the Republic of China (R.O.C.). The Company and its subsidiaries (the “Group”) are primarily engaged in manufacturing and selling of optoelectronic components, stamping molds, metal furniture, medical devices, and related international trading business. On April 17, 2006 and December 31, 2005, the Company merged with Yourui Precision Technology Co., Ltd. (“Yourui”) and Jingrong Machinery Co., Ltd. (“Jingrong”), respectively. The Company was the surviving company, while Yourui and Jingrong were the merged companies. The Company has been listed on the Taiwan Stock Exchange since April 2020.

2. The Date of Authorisation for Issuance of the Financial Statements and Procedures for Authorisation

These consolidated financial statements were authorised for issuance by the Board of Directors on February 23, 2023.

3. Application of New Standards, Amendments and Interpretations

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2022 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 3, ‘Reference to the conceptual framework’	January 1, 2022
Amendments to IAS 16, ‘Property, plant and equipment: proceeds before intended use’	January 1, 2022
Amendments to IAS 37, ‘Onerous contracts-cost of fulfilling a contract’	January 1, 2022
Annual improvements to IFRS Standards 2018-2020	January 1, 2022

The above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2023 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction'	January 1, 2023

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) IFRSs issued by International Accounting Standards Board ("IASB") but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by IASB
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2024
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”).

(2) Basis of preparation

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Financial assets at fair value through other comprehensive income.
 - (c) Defined benefit assets recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
- (a) All subsidiaries are included in the Group’s consolidated financial statements. Subsidiaries are all entities controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
 - (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
 - (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.
- (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

FOSHAN ZHENXUAN	FOSHAN SHENGDING TRADING CO., LTD. (FOSHAN SHENGDING)	Sales of optoelectronic components, stamping molds, and related international trading business	-	-	Note 1

- Note 1: The Group sold its 100% equity interest in FOSHAN ZHENXUAN to Foshan Bailima Doors and Windows Co., Ltd., a non-related party, by resolution of the board of directors of the Company on January 21, 2021. The transfer of ownership was effective on January 21, 2021, i.e. the date the Group lost control of FOSHAN ZHENXUAN. As a result of the transaction, the Group recognised gain on disposal of subsidiary of \$219,931, which was recognised in other gains and losses in the consolidated statement of comprehensive income. Information relating to cash flow for FOSHAN ZHENXUAN is provided in Note 6(29).
- Note 2: For the purpose of simplifying organizational structure of the Group and activate funds, the board of directors of the company resolved the appropriation of earnings and capital reduction of HER SHIN on March 26, 2021. The effective date of capital reduction was April 6, 2021. Part of the earnings and capital reduction amounting to US\$19,027 thousand was remitted to the Company on April 7, 2021, while the remaining earnings and capital reduction amounting to US\$126 thousand was remitted to JOCHU BVI on August 24, 2021, and the liquidation process for HER SHIN was completed on the same date.
- Note 3: In March 2021, the Company resolved the capital injection in PIH amounting to US\$6,484 thousand, and the Company injected US\$4,349 thousand through JOCHU BVI. As a result, the Company's shareholding in PIH increased from 63.45% to 65%.
- Note 4: In March 2021, the Company resolved the capital injection in JOCHU VIETNAM through JOCHU BVI and PIH amounting to US\$3,900 thousand. As a result, the Group's total ownership interest in JOCHU VIETNAM increased from 65% to 65.9%.
- Note 5: For the purpose of organisational restructuring, Xiamen Qiding was liquidated as resolved by the Board of Directors of the Company on December 21, 2020, and completed the cancellation of registration on March 23, 2021.
- Note 6: For the purpose of simplifying organisational structure of the Group, JOCHU BVI sold 2.56% of shareholding in JOCHU VIETNAM directly held by JOCHU BVI to PIH in May 2021 for the price of US\$384 thousand. After the transfer of ownership, the Group's total ownership interest in JOCHU VIETNAM decreased from 65.9% to 65%.
- Note 7: For the purpose of organisational restructuring, SUZHOU SHENG DING was liquidated as resolved by the Board of Directors of the Company on December 21, 2020, and the deregistration was completed on October 28, 2021.
- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Significant restrictions: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognised in other comprehensive income.
- (b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
- (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
- (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.

- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(9) Financial assets at amortised cost

- A. Financial assets at amortised cost are those that meet all of the following criteria:
(a) The objective of the Group's business model is achieved by collecting contractual cash flows.
(b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.
- D. The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(10) Notes and accounts receivable

- A. Notes and accounts receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term notes and accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(11) Impairment of financial assets

For financial assets at amortised cost including accounts receivable that have a significant financing component, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(12) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expired.

(13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

(14) Investments accounted for using equity method / associates

- A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognised at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognises the Group's share of change in equity of the associate in 'capital surplus' in proportion to its ownership.
- D. Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.

(15) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.

- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	5 years ~ 36 years
Machinery and equipment	3 years ~ 6 years
Transportation equipment	3 years ~ 5 years
Office equipment	3 years
Leasehold improvements	5 years
Other equipment	3 years ~ 5 years

(16) Leasing arrangements (lessee) — right-of-use assets / lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable. The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the amount of the initial measurement of lease liability. The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.
- D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset and remeasure the lease liability to reflect the partial or full termination of the lease, and recognise the difference in profit or loss.

(17) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(18) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(19) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(20) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(21) Non-hedging and embedded derivatives

Non-hedging derivatives are initially recognised at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognised in profit or loss.

(22) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method.
- ii. Remeasurements arising on the defined benefit plan are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Past service costs are recognised immediately in profit or loss.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(23) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.

- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.

(24) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(25) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(26) Revenue recognition

- A. The Group manufactures and sells optoelectronic components, medical devices, and metal furniture. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.
- B. Revenue from these sales is recognised based on the price specified in the contract, net of the estimated sales returns, discounts, and allowances. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A refund liability is recognised for expected sales returns, discounts, and allowances payable to customers in relation to sales made until the end of the reporting period.
- C. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(27) Government grants

Government grants are recognised at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises expenses for the related costs for which the grants are intended to compensate. Government grants related to property, plant and equipment are recognised as non-current liabilities and are amortised to profit or loss over the estimated useful lives of the related assets using the straight-line method.

(28) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group's chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. Critical Accounting Judgments, Estimates and Key Sources of Assumption Uncertainty

The preparation of these consolidated financial statements requires management to make critical judgments in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Critical judgments in applying the Group's accounting policies

None.

(2) Critical accounting estimates and assumptions

Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgments and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the net realisable value of the products within the specified period in the future.

Therefore, there might be material changes to the evaluation.

6. Details of Significant Accounts

(1) Cash and cash equivalents

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Cash on hand and petty cash	\$ 329	\$ 330

Valuation adjustment	(28,200)	(28,200)
	<u>\$ 3,071</u>	<u>\$ 14,468</u>

- A. The Group has elected to classify equity instruments that are considered to be strategic investments as financial assets at fair value through other comprehensive income. As at December 31, 2022 and 2021, the fair value of such investments were the same as the book value.
- B. For the years ended December 31, 2022 and 2021, the amounts recognised in other comprehensive income in relation to the financial assets at fair value through other comprehensive income are \$0 and \$8,890, respectively.
- C. Information relating to the change of eBio International Co., Ltd. is provided in Note 6(7).
- D. The Group had no financial assets at fair value through other comprehensive income pledged to others as collateral.

(4) Financial assets at amortised cost

Items	December 31, 2022	December 31, 2021
Current items:		
Restricted assets	\$ 1,764	\$ 11,737
Time deposits with original maturity period of more than three months	52,024	244,735
	<u>\$ 53,788</u>	<u>\$ 256,472</u>
Non-current item:		
Restricted assets	<u>\$ 403</u>	<u>\$ 371</u>

- A. Amounts recognised in profit or loss in relation to financial assets at amortised cost are listed below:

	Years ended December 31,	
	2022	2021
Interest income	<u>\$ 2,664</u>	<u>\$ 9,091</u>

- B. As at December 31, 2022 and 2021, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at amortised cost held by the Group was the book value at the balance sheet date.

C. Details of the Group's financial assets at amortised cost pledged to others as collateral are provided in Note 8.

D. The counterparties of the Group's investments in certificates of deposits are financial institutions with high credit quality, so the Group expects that the probability of counterparty default is remote.

(5) Notes and accounts receivable

	December 31, 2022	December 31, 2021
Notes receivable	\$ 29,661	\$ 24,078

eBio International Co., Ltd.	<u>\$ 8,442</u>

- A. The Company obtained a seat on the board of eBio International Co., Ltd. on February 14, 2022. As a result of the election, the Company hereafter has significant influence over eBio International Co., Ltd., and accordingly, the investment account was reclassified from financial assets at fair value through other comprehensive income to investments accounted for under equity method.
- B. On December 31, 2022, the Company assessed the recoverable amount of its equity interest in eBio International Co., Ltd, by comparing the historical average profit or loss of the industry and the historical profit or loss of comparable companies, and used the operating revenue completion percentage in calculating the fair value of the investment as the recoverable amount. Based on the result of aforementioned assessment, the Company recognised impairment loss on its investment accounted for under equity method amounting to \$507 for the year ended December 31, 2022.
- C. The share of loss of investment accounted for under equity method in eBio International Co., Ltd. was (\$2,751) for the year ended December 31, 2022, which was recognised based solely on the audit report of other independent auditors.

- A. Amount of borrowing costs capitalised as part of property, plant and equipment and the range of the interest rates for such capitalisation: None.
- B. The significant components of buildings and structures include main plants and engineering systems, which are depreciated over 15~36 years and 5~8 years, respectively.
- C. The Group has estimated that the expected future cash flows of certain machinery and equipment used in the production of products in 2022 will decrease resulting in a recoverable amount which is less than the book value. Accordingly, the Group recognised an impairment loss of \$10,903.
- D. Information about the property, plant and equipment that were pledged to others as collateral is provided in Note 8.

(9) Leasing arrangements — lessee

- A. The Group leases various assets including land, buildings, business vehicles, and multifunction printers. Rental contracts for land are typically made for periods of 46 to 50 years, while the others are made for periods of 1 to 3 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.
- B. Short-term leases with a lease term of 12 months or less comprise leasing of warehouse, office, and business vehicles. Low-value assets comprise leasing of multifunction printers. The abovementioned leases were excluded from right-of-use assets.
- C. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	Carrying amount	
	December 31, 2022	December 31, 2021
Land	\$ 74,689	\$ 70,804
Buildings	13,456	34,948

- D. For the years ended December 31, 2022 and 2021, the additions to right-of-use assets were \$1,971 and \$24,055, respectively.

E. The information on profit and loss accounts relating to lease contracts is as follows:

	Years ended December 31,	
	2022	2021
<u>Items affecting profit or loss</u>		
Interest expense on lease liabilities	\$ 1,032	\$ 1,816
Expense on short-term lease contracts	20,278	8,480
Expense on leases of low-value assets	56	71
Expense on variable lease payments	178	-
Gain on lease modification	727	159

F. For the years ended December 31, 2022 and 2021, the Group's total cash outflow for leases were \$46,463 and \$133,903, respectively.

G. Variable lease payments

Some of the Group's lease contracts contain variable lease payment terms that are linked to distance and hours which were used. Various lease payments that depend on distance and hours are recognised in profit or loss in the period in which the event or condition that triggers those payments occurs.

H. The Group leased land from the Tainan Science and Technology Industrial Park for business use. On December 21, 2020, the Company's board of directors resolved to apply for permit from the Tainan Science and Technology Industrial Park to use the land for science and technology industry factory. In the first quarter of 2021, the Group obtained the approval letter from the Tainan Science and Technology Park and paid the remaining lease payments amounting to \$93,480. In May 2021, the land use rights were transferred to the Group, and the right-of-use assets were transferred to property, plant and equipment.

(14) Pensions

A. Defined benefit pension plan

(a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions for the deficit by next March.

(b) The amounts recognised in the balance sheet are as follows:

	December 31, 2022	December 31, 2021
Present value of defined benefit obligations	(\$ 6,024)	(\$ 6,614)
Fair value of plan assets	16,023	14,773

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitisation products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorised by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2022 and 2021 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

	Years ended December 31,	
	2022	2021
Discount rate	1.375%	0.625%
Future salary increases	3%	3%

- i. Assumptions regarding future mortality experience are set based on actuarial advice in accordance with 2021 Taiwan Standard Ordinary Experience Mortality Table.
- ii. Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase	Decrease	Increase	Decrease
	0.25%	0.25%	0.25%	0.25%
<u>December 31, 2022</u>				
Effect on present value of defined benefit obligation	(\$ 113)	\$ 116	\$ 112	\$ 110
<u>December 31, 2021</u>				
Effect on present value of defined benefit obligation	(\$ 138)	\$ 142	\$ 137	\$ 134

- iii. The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.
 - iv. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period
- (f) The Company has acquired the approval from the Hsinchu County Government to suspend its contribution to the defined benefit pension plan for 2023 and 2022.
 - (g) As of December 31, 2022 and 2021, the weighted average duration of the retirement plan is 7.6 and 8.4 years, respectively.
- B. Defined contribution pension plan
- (a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
 - (b) The Company’s mainland China subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People’s Republic of China (PRC) are based on certain percentage of employees’ monthly salaries and wages. The contribution for each employee was planned by PRC government. Other than the monthly contributions, the Group has no further obligations.

(c) The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2022 and 2021 were \$31,115 and \$28,175, respectively.

(15) Share capital

- A. As of December 31, 2022, the Company's authorised capital was \$2,000,000, consisting of 200,000 thousand shares of ordinary stock, and the paid-in capital was \$892,631 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.
- B. As at December 31, 2022 and 2021, the Company's ordinary shares outstanding are both 89,263 thousand shares.

(16) Capital surplus

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Share premium	\$ 1,612,472	\$ 1,612,472

Changes in ownership interests in subsidiaries	7,906	7,906
	<u>\$ 1,728,746</u>	<u>\$ 1,728,746</u>

- A. Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.
- B. The appropriation of capital surplus as of December 31, 2020 amounting to \$107,116 (\$1.2 per share) had been resolved at the annual shareholders' meeting on July 16, 2021.

(17) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses, set aside 10% of the remaining amount as legal reserve, then set aside or reverse a special reserve according to relevant regulations when necessary. The remainder, if any, to be retained or to be appropriated shall be proposed by the Board of Directors and resolved by the shareholders at the shareholders' meeting. The Board of Directors is authorised to distribute all or part of the dividends and bonuses, capital surplus or legal reserve that should be distributed in cash by a resolution approved by more than half of the directors present at a meeting with the presence of more than two-thirds of the directors. Such provisions does not require approval by the shareholders.

- B. The Company's dividend policy is summarised below: as the Company is in the stable growth stage, the residual dividend policy is adopted taking into consideration the Company's future capital expenditure plans and the financial structure. According to the dividend policy adopted by the Board of Directors, at least 1% of the Company's distributable earnings as of the end of the period shall be appropriated as cash or stock dividends, of which not more than 60% shall be paid in stock.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. Special reserve
- In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
 - The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Order No. Financial-Supervisory-Securities-Corporate-1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.
- E. Appropriation of earnings
- The 2020 deficit compensation was resolved at the annual shareholders' meeting on July 16, 2021. The Company used legal reserve to cover accumulated deficit in the amount of \$110,566 and reversed special reserve in the amount of \$13,718.
 - The appropriations of 2021 earnings had been resolved at the annual shareholders' meeting on May 27, 2022. Details are summarised below:

(28) Transactions with non-controlling interest

- A. PIH increased its capital by issuing new shares in March 2021, and the Group did not acquire shares proportionally to its interest. As a result, the Group increased its share interest by 1.55%, and decreased non-controlling interest by 1.55%.

The transaction increased non-controlling interest by \$60,435 and decreased the equity attributable to owners of parent by \$35. The effect of changes in interests in PIH on the equity attributable to owners of the parent for the year ended December 31, 2021 is shown below:

	Year ended December 31, 2021
Cash	\$ 60,400
Interest in the carrying amount of non-controlling interest acquired	(60,435)
Capital surplus- recognition of changes in ownership interest in subsidiary	(\$ 35)

- B. The Group did not conduct any transaction with non-controlling interest for the year ended December 31, 2022.

The Company assessed the amount of right-of-use assets based on the 3-year medium-term operation plan and plans to acquire right-of-use assets amounting to \$44,436.
- (2) On February 17, 2023, the Board of Directors of the Company resolved to increase its investment in eBio International Co., Ltd. The Company plans to acquire additional shares of up to 6,200 thousand shares amounting to \$68,200.

12. Others

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. The capital structure of the Group consists of net debt (borrowings offset by cash and cash equivalents) and equity attributable to owners of the Group (comprising issued capital, reserves, retained earnings and other equity). The Group is not subject to any externally imposed capital requirements.

B. Financial risk management policies

- (a) The Group's major financial instruments included equity investments, accounts receivable, accounts payable, and bank borrowings. The Group's Corporate Treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include market risk (including currency risk and interest rate risk), credit risk and liquidity risk.
- (b) The Group sought to minimise the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives was governed by the Group's policies approved by the board of directors, which provided written principles on foreign exchange risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits was reviewed by the internal auditors on a continuous basis. The Group did not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Group engages in sales and purchases denominated in foreign currencies and are exposed to exchange rate fluctuations. The Group manages exchange rate risks within the scope permitted by the policy, using forward foreign exchange contracts to manage risks.
- ii. The Group's businesses involve some non-functional currency operations (the Company's and domestic subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: RMB, USD, and VND). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

December 31, 2022			
	Foreign currency amount (In thousands)	Exchange rate	Book value (NTD)
(Foreign currency: functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	\$ 8,815	30.7100	\$ 270,709

<u>Monetary items</u>			
USD:NTD	\$ 460	27.6800	\$ 12,733
USD:RMB	5,954	6.3757	164,807

- iii. Total exchange gains (losses), including realised and unrealised, arising from significant foreign exchange variation on the monetary items held by the Group for the years ended December 31, 2022 and 2021, amounted to \$51,361 and (\$22,432), respectively.

iv. Analysis of foreign currency market risk arising from significant foreign exchange variation:

Cash flow and fair value interest rate risk

- The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. During 2022 and 2021, the Group's borrowings at variable rate were mainly denominated in New Taiwan dollars.
- If the borrowing interest rate of New Taiwan dollars had increased/decreased by 4 basis points with all other variables held constant, profit, net of tax for the years ended December 31, 2022 and 2021 would have increased/decreased by \$4,690 and \$5,094, respectively. The main factor is that changes in interest expense result from floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. As at the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to default by the counterparties and financial guarantees provided by the Group arises from:
 - (i) The carrying amount of the respective recognised financial assets as stated in the balance sheets;
 - (ii) The amount of contingent liabilities in relation to financial guarantee issued by the Group.
- ii. In order to mitigate the credit risk, the Group will conduct credit rating for the transaction object and obtain sufficient security if necessary to mitigate the risk of financial loss due to default. If such information is not available, the Group will use other publicly available financial information and mutual transaction records to rate key customers. The Group will continue to monitor the credit risk and the credit rating of the counterparty through the determination of the credit line and the approval of the credit line. In addition, the Group reviews the recoverable amounts of receivables individually at the balance sheet date to ensure that appropriate impairment losses have been provided for unrecoverable receivables. Accordingly, the Group's management believes that the Group's credit risk has been significantly reduced.
- iii. The Group adopts the following assumption under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition: If the contract payments were past due over 90 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- iv. In line with credit risk management procedure, when there is evidence that the counterparty faces serious financial difficulties and the Group cannot reasonably expect to recover the amount, for example, the counterparty is in liquidation, the Group considers that the counterparty has signs of default.
- v. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.
- vi. The Group applies the modified approach using a provision matrix to estimate expected credit loss under the provision matrix basis. Based on the Group's historical experience, there is no significant difference in the loss patterns among different customer groups. The provision matrix does not further differentiate customer groups, and only sets the expected credit loss rate based on the number of days overdue for receivable, except for individual cases that need to be evaluated separately.

vii. The Group used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. On December 31, 2022 and 2021, the provision matrix is as follows:

<u>December 31, 2022</u>	<u>Expected loss rate</u>	<u>Total book value</u>	<u>Loss allowance</u>
Not past due	0%	\$ 965,267	\$ -
Up to 90 days	0%	38,835	-
Over 91 days	100%	1,573	1,573
		<u>\$ 1,005,675</u>	<u>\$ 1,573</u>
<u>December 31, 2021</u>	<u>Expected loss rate</u>	<u>Total book value</u>	<u>Loss allowance</u>
Not past due	0%	\$ 1,139,054	\$ -
Up to 90 days	0%	15,872	-
Over 91 days	100%	74	74
		<u>\$ 1,155,000</u>	<u>\$ 74</u>

viii. Movements in relation to the Group applying the modified approach to provide loss allowance for accounts receivable are as follows:

	<u>2022</u>
At January 1	\$ 74
Provision for impairment	1,507
Effect of foreign rate exchange	(8)
At December 31	<u>\$ 1,573</u>
	<u>2021</u>
At January 1	\$ 2,555
Provision for impairment	74
Write-offs	(2,555)
Effect of foreign rate exchange	-
At December 31	<u>\$ 74</u>

(c) Liquidity risk

i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by the Group's Corporate Treasury function. The Group's Corporate Treasury function monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets and external regulatory or legal requirements.

ii. The Group has the following undrawn borrowing facilities:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Floating rate:		
Expiring within one year	\$ 2,134,373	\$ 2,028,080
Expiring beyond one year	-	-
Fixed rate:		
Expiring within one year	\$ -	\$ -
Expiring beyond one year	-	-

iii. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

<u>December 31, 2022</u>	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>Over 5 years</u>

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Group has no related investment.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market is included in Level 3.

B. Except for those listed in the table below, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, accounts receivable-related parties, other receivables, guarantee deposits paid, short-term borrowings, notes payable, accounts payable, other payables, lease liabilities, long-term borrowings (including current portion), and guarantee deposits received are approximate to their fair values.

C. The related information on financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

(a) The related information on the nature of the assets and liabilities is as follows:

	<u>\$ -</u>	<u>\$ 13,657</u>	<u>\$ 14,468</u>	<u>\$ 28,125</u>

(b) The methods and assumptions the Group used to measure fair value are as follows:

- i. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date.
- ii. When assessing non-standard and low-complexity financial instruments, for example, interest rate swap contracts and foreign exchange swap contracts, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- iii. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.
- iv. The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.

- D. For the years ended December 31, 2022 and 2021, there was no transfer between Level 1 and Level 2.
- E. The following chart is the movement of Level 3 for the years ended December 31, 2022 and 2021:

	Equity instrument	
	2022	2021
At January 1	\$ 14,468	\$ 11,738

At January 1	\$	-
Acquired during the year		12,000
Recognised in profit or loss		460
At December 31	<u>\$</u>	<u>12,460</u>

- F. Information relating to transfer out amounting to \$11,700 from Level 3 for the year ended December 31, 2022 is provided in Note 6(7). For the year ended December 31, 2021, there was no transfer into or out from Level 3.
- G. Investing segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value. Investment segment set up valuation policies, valuation processes and rules for measuring fair value of financial instruments and ensure compliance with the related requirements in IFRS.
- H. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	December 31, 2022	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 3,071	Market comparable companies	Price to earnings ratio multiple, discount for lack of marketability	Not applicable	The higher the multiple, the higher the fair value; the higher the discount for lack of marketability, the lower the fair value.
Private equity fund	12,460	Net asset value	Not applicable	Not applicable	The higher the net asset value, the higher the fair value.

Major shareholders information
December 31, 2022

Table 5

Name of major shareholders	Shares		
	Number of shares held (Ordinary share)	Number of shares held (preferred share)	Ownership (%)
Heng Xing Investment Co., Ltd.	9,124,000	-	10.22%
China Development Capital Co., L td.	4,746,720	-	5.31%

Note 1: The information of major shareholders presented in this table is provided by the Taiwan Depository & Clearing Corporation based on the number of ordinary shares and preferred shares held by shareholders with ownership of 5% or greater, that have been issued without physical registration (included treasury shares) by the Group as of the last business day for the current quarter.

The share capital in the consolidated financial statements may differ from the actual number of shares that have been issued without physical registration because of different preparation basis.

Note 2: If a shareholder delivers their shareholdings to the trust, the above information will be disclosed by the individual trustee who opened the trust account. For shareholders who declare insider shareholdings with ownership greater than 10% in accordance with Securities and Exchange Act, the shareholdings include shares held by shareholders and those delivered to the trust over which shareholders have rights to determine the use of trust property. For information relating to insider shareholding declaration, refer to Market Observation Post System.

Note 3: The principle of preparation of this table is to calculate the distribution of the balance of each credit transaction with reference to the roster of securities owners whose transfer has been suspended by the shareholders' temporary meeting (the securities lending will not be replenished).

Note 4: Shareholding rate (%)= Number of shares held / Total number of shares that have been issued without physical registration.

Note 5: Total number of shares that have been issued without physical registration (including treasury shares) is 89,263,150 shares = 89,263,150 (Ordinary share)+ 0 (Preferred share).
