

JOCHU TECHNOLOGY CO., LTD.
PARENT COMPANY ONLY FINANCIAL
STATEMENTS AND INDEPENDENT AUDITORS’
REPORT
DECEMBER 31, 2024 AND 2023

For the convenience of readers and for information purpose only, the auditors’ report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors’ report and financial statements shall prevail.

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of JOCHU TECHNOLOGY CO., LTD.

Opinion

We have audited the accompanying parent company only balance sheets of JOCHU TECHNOLOGY CO., LTD. (the "Company") as at December 31, 2024 and 2023, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of material accounting policies.

In our opinion, based on our audits and the reports of other auditors (please refer to the Other matter section), the accompanying parent company only financial statements present fairly, in all material respects, the parent company only financial position of the Company as at December 31, 2024 and 2023, and its parent company only financial performance and its parent company only cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the parent company only financial statements* section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Company's 2024 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Company's 2024 parent company only financial statements are stated as follows:

Key audit matter – Existence of sales to specific customers

Description

There is a significant audit risk associated with revenue recognition in accordance with the auditing standards. The Company's sales revenue is concentrated mainly in its top ten customers. As sales revenue from top ten customers is material to the parent company only financial statements for the year ended December 31, 2024, we considered the existence of sales revenue from top ten customers as the key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

1. Inspecting whether approved additions to the merchandise master file data had been correctly entered in the merchandise master file which include basic information of customers, such as name of representative, location of company, amount of capital and scope of business for evaluating the creditworthiness of buyers.
2. Understanding, evaluating and validating management's controls in respect of the Company's sales transactions with top ten customers from customer order's approval, goods delivery, sales recording, reconciliation of cash receipts and customer's records to subsequent settlement of trade receivables. In addition, testing the effectiveness of internal control environment over revenue recognition.
3. We obtained details of sales revenue from top ten customers for the year ended December 31, 2024, sampled the related transactions against the original orders, delivery notes, invoices and other related documents and verified the amount to ensure the existence of revenue.
4. We obtained details of sales returns and discounts from top ten customers after the balance sheet date, and sampled the sales returns and discounts against related documents and examined the reasonableness of the reasons for returns and discounts.

Key audit matter – Impairment assessment of premium on investments accounted for under equity method

Description

Refer to Notes 4(17) for accounting policy on impairment assessment of investments accounted for under equity method, Notes 6(6) for details of impairment assessment of investments accounted for under equity method, and Note 5(2) for uncertainty of accounting estimates and assumptions in relation to impairment assessment of investments accounted for under equity method.

As of December 31, 2024, the investments of eBio International Co., Ltd is material and there is a premium arising from goodwill. The future cash flows projections of the expected recoverable amount was calculated based on management's estimation and expectation of the future operations, which involve management's subjective judgement and significant estimation, and the result is significant to the financial statements. Thus, we consider impairment assessment of investments accounted for using equity method a key audit matter.

How our audit addressed the matter

We performed the following audit procedures relative to the above key audit matter:

1. Assessed whether the valuation models adopted by the Company are reasonable for the industry, environment and the valued assets of the Company;
2. Confirmed whether the expected future cash flows adopted in the valuation model are in agreement with the budget provided by the cash-generating units;
3. Compared the recoverable value and book value of each cash-generating unit in order to assess the reasonableness of the book value.

Other matter – Reference to the audit of other auditors

We did not audit the financial statements of an investment accounted for under the equity method which were audited by other auditors. Therefore, our opinion expressed herein, insofar as it relates to the amounts included in respect of this associate, is based solely on the report of the other auditors. The balance of this investment accounted for under the equity method amounted to NT22,791 thousand and NT\$57,525 thousand, constituting 0.68% and 1.61% of total assets as at December 31, 2024 and 2023, respectively, and the comprehensive income recognized from the associate accounted for under the equity method amounted to (NT\$19,818) thousand and (NT\$13,873) thousand, constituting 199.48% and (27.03%) of the total comprehensive income for the year then ended, respectively.

Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Liao, Fu-Ming

Lin, Yung-Chih

For and on Behalf of PricewaterhouseCoopers, Taiwan

February 25, 2025

The accompanying parent company only financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying parent company only financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

Cash dividends paid	6(17)	(44,132)	(26,779)
Net cash flows used in financing activities		(179,958)	(334,337)
Net increase (decrease) in cash and cash equivalents		(175,740)	154,623
Cash and cash equivalents at beginning of year		589,596	434,836
Cash and cash equivalents at end of year		\$ 413,719	\$ 589,459

The accompanying notes are an integral part of these parent company only financial statements.

JOCHU TECHNOLOGY CO., LTD.
NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

(In thousands of New Taiwan dollars, except as otherwise indicated)

1. History and Organization

Jochu Technology Co., Ltd. (the “Company”) was incorporated in June 2000 under the provisions of the Company Act of the Republic of China (R.O.C.). The Company is primarily engaged in manufacturing and selling of optoelectronic components, stamping molds, metal furniture, medical devices, and related international trading business. On April 17, 2006 and December 31, 2005, the Company merged with Yourui Precision Technology Co., Ltd. (“Yourui”) and Jingrong Machinery Co., Ltd. (“Jingrong”), respectively. The Company was the surviving company, while Yourui and Jingrong were the merged companies. The Company has been listed on the Taiwan Stock Exchange since April 2020.

2. The Date of Authorization for Issuance of the Financial Statements and Procedures for Authorization

These parent company only financial statements were authorized for issuance by the Board of Directors on February 25, 2025.

3. Application of New Standards, Amendments and Interpretations

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS[®]”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2024 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 16, ‘Lease liability in a sale and leaseback’	January 1, 2024
Amendments to IAS 1, ‘Classification of liabilities as current or noncurrent’	January 1, 2024
Amendments to IAS 1, ‘Non-current liabilities with covenants’	January 1, 2024
Amendments to IAS 7 and IFRS 7, ‘Supplier finance arrangements	January 1, 2024

The above standards and interpretations have no significant impact to the Company’s financial condition and financial performance based on the Company’s assessment.

(2) Effect of new issuances of or amendments to IFRSs Accounting Standards as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC effective from 2025 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by IASB</u>
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRSs Accounting Standards issued by International Accounting Standards Board ("IASB") but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs Accounting Standards as endorsed by the FSC are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by IASB</u>
Amendments to IFRS 9 and IFRS 7, 'Amendments to the classification and measurement of financial Instruments'	January 1, 2026
Amendments to IFRS 9 and IFRS 7, 'Contracts referencing nature-dependent electricity'	January 1, 2026
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by IASB
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
IFRS 18, 'Presentation and disclosure in financial statements'	January 1, 2027
IFRS 19, 'Subsidiaries without public accountability: disclosures'	January 1, 2027
Annual Improvements to IFRS Accounting Standards—Volume 11	January 1, 2026

Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

IFRS 18, 'Presentation and disclosure in financial statements'

IFRS 18, 'Presentation and disclosure in financial statements' replaces IAS 1. The standard introduces a defined structure of the statement of profit or loss, disclosure requirements related to management-defined performance measures, and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

4. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The parent company only financial statements of the Company have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers.

(2) Basis of preparation

- A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:
- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Financial assets at fair value through other comprehensive income.
 - (c) Defined benefit assets recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.

(3) Foreign currency translation

Items included in the parent company only financial statements are measured using the currency of the primary economic environment in which the Company operates (the “functional currency”). The parent company only financial statements are presented in New Taiwan dollars, which is the Company’s functional and presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair

value are translated using the historical exchange rates at the dates of the initial transactions.

- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognized in other comprehensive income.

(4) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

- (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
- (b) Assets held mainly for trading purposes;
- (c) Assets that are expected to be realized within twelve months from the balance sheet date;
- (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- (a) Liabilities that are expected to be settled within the normal operating cycle;
- (b) Liabilities arising mainly from trading activities;
- (c) Liabilities that are to be settled within twelve months from the balance sheet date;
- (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(5) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(6) Financial assets at fair value through profit or loss

A. Financial assets at fair value through profit or loss are financial assets that are not measured at

amortized cost or fair value through other comprehensive income.

- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. The Company recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(7) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:
The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(8) Financial assets at amortized cost

- A. Financial assets at amortized cost are those that meet all of the following criteria:
 - (a) The objective of the Company's business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortized cost are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognized in profit or loss when the asset is derecognized or impaired.
- D. The Company's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(9) Notes and accounts receivable

- A. Notes and accounts receivable entitle the Company a legal right to receive consideration in

exchange for transferred goods or rendered services.

- B. The short-term notes and accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(10) Impairment of financial assets

For financial assets at amortized cost including accounts receivable that have a significant financing component, at each reporting date, the Company recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognizes the impairment provision for lifetime ECLs.

(11) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to receive the cash flows from the financial asset expired.

(12) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

(13) Investments accounted for under equity method / subsidiaries

- A. Subsidiaries are entities controlled by the Company. The Company controls the entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- B. All unrealized profit or loss resulting from transactions between the Company and its subsidiaries have been eliminated in full. Accounting policies of subsidiaries have been adjusted when necessary in order to be consistent with those of the Company.
- C. The Company's share of profit or loss in subsidiaries after acquisition is recognized in profit or loss, whereas its share of other comprehensive income in subsidiaries after acquisition is recognized in other comprehensive income. If the Company's share of loss in a subsidiary exceeds its share of equity in such a subsidiary, the Company continues to recognize losses in its shareholding percentage.
- D. According to Regulations Governing the Preparation of Financial Reports by Securities Issuers, the profit or loss of the period and other comprehensive income presented in parent company only financial statements shall be the same as the allocations of profit or loss of the period and

of other comprehensive income attributable to owners of the parent presented in the financial statements prepared on a consolidated basis, and the owners' equity presented in the parent company only financial statements shall be the same as the equity attributable to owners of the parent presented in the financial statements prepared on a consolidated basis.

(14) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	8 years ~ 36 years
Machinery and equipment	5 years ~ 6 years
Transportation equipment	3 years ~ 5 years
Office equipment	3 years
Leasehold improvements	5 years
Other equipment	4 years ~ 6 years

(15) Leasing arrangements (lessee) — right-of-use assets / lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable. The Company subsequently measures the lease liability at amortized cost using the interest method and

recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the amount of the initial measurement of lease liability. The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.
- D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset and remeasure the lease liability to reflect the partial or full termination of the lease, and recognize the difference in profit or loss.

(16) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 28.5 years.

(17) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(18) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(19) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(20) Derecognition of financial liabilities

A financial liability is derecognized when the obligation specified in the contract is either discharged or cancelled or expires.

(21) Non-hedging and embedded derivatives

Non-hedging derivatives are initially recognized at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognized in profit or loss.

(22) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expense when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method.

ii. Remeasurements arising on the defined benefit plan are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

iii. Past service costs are recognized immediately in profit or loss.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Company calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(23) Income tax

A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive

income or equity.

- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
- D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

(24) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is

included in equity attributable to the Company's equity holders.

(25) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(26) Revenue recognition

- A. The Company manufactures and sells optoelectronic components, medical devices, and metal furniture. Sales are recognized when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied.
- B. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated sales return, discounts, and allowances. Revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A refund liability is recognized for expected sales return, discounts, and allowances payable to customers in relation to sales made until the end of the reporting period.
- C. Accounts receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

5. Critical Accounting Judgments, Estimates and Key Sources of Assumption Uncertainty

The preparation of these parent company only financial statements requires management to make critical judgments in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Critical judgments in applying the Company's accounting policies

None.

(2) Critical accounting estimates and assumptions

A. Evaluation of inventories

As inventories are stated at the lower of cost and net realizable value, the Company must determine the net realizable value of inventories on balance sheet date using judgments and estimates. Due to the rapid technology innovation, the Company evaluates the amounts of normal

inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realizable value. Such an evaluation of inventories is principally based on the net realizable value of the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

B. Impairment assessment of investments accounted for using equity method

The Company assesses the impairment of an investment accounted for using equity method as soon as there is any indication that it might have been impaired and its carrying amount cannot be recovered. The Company assesses the recoverable amounts of an investment accounted for under the equity method based on the present value of the Company's share of expected future cash flows of the investee, and analyses the reasonableness of related assumptions.

As of December 31, 2024, the Company's investments accounted for under the equity method, net of impairment loss, amounted to \$1,882,807.

6. Details of Significant Accounts

(1) Cash and cash equivalents

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Cash on hand and petty cash	\$ 150	\$ 150
Checking accounts and demand deposits	213,569	205,079
Time deposits	<u>200,000</u>	<u>384,230</u>
	<u>\$ 413,719</u>	<u>\$ 589,459</u>

A. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. The Company has no cash and cash equivalents pledged to others.

(2) Financial assets at fair value through profit or loss

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Current items:		
Financial assets mandatorily measured at fair value through profit or loss		
Forward foreign exchange contracts	<u>\$ -</u>	<u>\$ 3,796</u>

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Non-current items:		
Financial assets mandatorily measured at fair value through profit or loss		
Private equity fund	\$ 30,000	\$ 21,000
Valuation adjustment	<u>477</u>	<u>4,103</u>
	<u>\$ 30,477</u>	<u>\$ 25,103</u>

Current items:

Financial assets mandatorily
measured at fair value through
profit or loss

Forward foreign exchange contracts	<u>\$ 2,671</u>	<u>\$ -</u>
------------------------------------	-----------------	-------------

- A. Amounts recognized in profit or loss in relation to financial assets at fair value through profit or loss are listed below:

	<u>Years ended December 31,</u>	
	<u>2024</u>	<u>2023</u>
Financial assets and liabilities mandatorily measured at fair value through profit or loss		
Forward foreign exchange contracts	(\$ 13,887)	(\$ 4,152)
Private equity fund	(<u>3,626</u>)	<u>3,643</u>
	<u>(\$ 17,513)</u>	<u>(\$ 509)</u>

- B. The Company entered into contracts relating to derivative financial assets which were not accounted for under hedge accounting. The information is listed below:

	<u>December 31, 2024</u>	
	Contract amount (notional principal)	
<u>Derivative financial Instruments</u>	<u>(in thousands)</u>	<u>Maturity date</u>
Current items:		
Forward foreign exchange contracts		
Sell USD Buy NTD	USD 4,060	2025.01.10~2025.03.10

	December 31, 2023	
Derivative financial Instruments	Contract amount (notional principal) (in thousands)	Maturity date

Current items:

Forward foreign exchange contracts

Sell USD Buy NTD USD 4,060 2024.01.10~2024.03.11

The Company entered into forward foreign exchange contracts to sell USD to hedge exchange rate fluctuations of foreign currency denominated assets and liabilities. However, these forward foreign exchange contracts are not accounted for under hedge accounting.

C. The Company had no financial assets at fair value through profit or loss pledged to others as collateral.

D. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

(3) Financial assets at fair value through other comprehensive income

Items	December 31, 2024	December 31, 2023
Non-current items:		
Equity instruments		
Unlisted stocks		
Y Company	\$ 3,000	\$ -
B Company	2,500	-
	<u>\$ 5,500</u>	<u>\$ -</u>

A. The Company has elected to classify equity instruments that are considered to be strategic investments as financial assets at fair value through other comprehensive income. As at December 31, 2024 and 2023, the fair value of such investments were the same as the book value.

B. The amounts recognized in other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

	Years ended December 31,	
	2024	2023
Equity instruments at fair value through other comprehensive income		
Fair value changes recognized in other comprehensive income	<u>\$ -</u>	<u>\$ 7,906</u>
Cumulative losses reclassified to retained earnings due to derecognition of financial assets	<u>\$ -</u>	<u>\$ 20,294</u>

C. The Company had no financial assets at fair value through other comprehensive income pledged

to others as collateral.

(4) Notes and accounts receivable

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Accounts receivable	\$ 151,894	\$ 196,445
Less: Allowance for uncollectible accounts	(735)	(550)
	<u>\$ 151,159</u>	<u>\$ 195,895</u>

A. As at December 31, 2024 and 2023, notes receivable and accounts receivable were all from contracts with customers. As at January 1, 2023, the balance of receivables from contracts with customers amounted to \$179,137.

B. The ageing analysis of notes receivable and accounts receivable is as follows:

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
	Accounts receivable	Accounts receivable
Not past due	\$ 144,587	\$ 181,108
Up to 90 days	6,572	14,787
Over 91 days	725	550
	<u>\$ 151,894</u>	<u>\$ 196,445</u>

The above ageing analysis was based on past due date.

C. As at December 31, 2024 and 2023, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Company's notes and accounts receivable were the book value at the balance sheet date.

D. Information relating to credit risk of notes receivable and accounts receivable is provided in Note 12(2).

(5) Inventories

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Raw materials	\$ 33,281	\$ 27,675
Work in progress and Semi-finished goods	63,460	40,391
Finished goods	<u>48,644</u>	<u>44,115</u>
	145,385	112,181
Less: Allowance for valuation loss	(23,739)	(23,689)
	<u>\$ 121,646</u>	<u>\$ 88,492</u>

The cost of inventories recognized as expense for the year:

	Years ended December 31,	
	2024	2023
Cost of inventories sold	\$ 940,155	\$ 975,572
Loss on decline in market value	50	813
Loss on disposal of inventory	242	170
Revenue from sale of scraps	(9,430)	(11,785)
	<u>\$ 931,017</u>	<u>\$ 964,770</u>

(6) Investments accounted for under equity method

	2024	2023
At January 1	\$ 2,004,946	\$ 2,369,182
Addition of investments accounted for under equity method	-	254,506
Share of profit of investments accounted for under equity method	62,247	161,664
Investments accounted for under equity method impairment loss	(14,916)	-
Earnings distribution of investments accounted for under equity method	(260,927)	(743,304)
Changes in other equity items (Note 6(18))	89,208	(35,280)
Others	<u>2,249</u>	<u>(1,822)</u>
At December 31	<u>\$ 1,882,807</u>	<u>\$ 2,004,946</u>
	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Subsidiaries		
JOCHU INVESTMENT LTD.		
(JOCHU BVI)	\$ 1,828,362	\$ 1,908,302
LEGIUN Technology Co., Ltd.	31,654	39,119
eBio International Co., Ltd.	<u>22,791</u>	<u>57,525</u>
	<u>\$ 1,882,807</u>	<u>\$ 2,004,946</u>

A. Subsidiaries

- For information on the Company's subsidiaries, refer to Note 4(3) in the 2024 consolidated financial statements.
- The Company invested \$191,550 (US\$6,000 thousand) in JOCHU BVI in 2023.
- The Company received from JOCHU BVI the earnings distribution of \$260,927 (US\$8,253 thousand) and \$743,304 (US\$23,769 thousand) in 2024 and 2023, respectively.
- During the period from February to March of the fiscal year 2023, the Company purchased a portion of shares in eBio International Co., Ltd. for a cash amount of \$59,414, thereby participating in its cash increase plan. As a result, the Company's ownership stake in eBio

International Co., Ltd. increased from 9.81% to 52.02%, granting control over the company. In accordance with IFRS 3 "Business Combinations," the previously held equity interest in eBio International Co., Ltd. was remeasured at fair value as of the acquisition date, resulting in a disposal gain of \$3,542, which was recognized in profit and loss.

- (e) Since its establishment, eBio International Co., Ltd. has continuously faced losses due to market changes and operational challenges. Consequently, the Company's actual revenue growth and budget achievement following the acquisition have fallen short of expectations. From the acquisition date to December 31, 2024, there has been a significant discrepancy between the actual revenue and operating profit/loss compared to the original projections. As of December 31, 2024, the Company assessed the recoverable amount of its investment in eBio International Co., Ltd. by evaluating past budget execution results and estimating the fair value based on expected future cash flows. The fair value was determined using a discount rate of 15.47%. Based on this assessment, the impairment loss recognized under the equity method for the year 2024 amounted to \$14,916.
- (f) The share of loss of investment accounted for under equity method in eBio International Co., Ltd. was (\$19,818) and (\$13,873) for the year ended December 31, 2024 and 2023, which was recognized based solely on the audit report of other independent auditors.

- A. Amount of borrowing costs capitalized as part of property, plant and equipment and the range of the interest rates for such capitalization: None.
- B. The significant components of buildings and structures include main plants and engineering systems, which are depreciated over 15~36 years and 8~16 years, respectively.
- C. The Company has estimated that the expected future cash flows of certain machinery and equipment used in the production of products will decrease resulting in a recoverable amount which is less than the book value. Accordingly, for the years ended December 31, 2024, the Company recognized impairment loss of \$2,263.
- D. The abovementioned impairment loss and reversal of loss were included under other gains and losses in the parent company only statement of comprehensive income.
- E. Information about the property, plant and equipment that were pledged to others as collateral is provided in Note 8.
- F. The amount of reclassifications for the year in 2024 and 2023 was reclassified from other non-current assets to property, plant and equipment.

(8) Leasing arrangements — lessee

- A. The Company leases various assets including buildings and business vehicles, and rental contracts are typically made for periods of 1 to 5 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.
- B. Short-term leases with a lease term of 12 months or less comprise leasing of warehouse, office. Low-value assets comprise leasing of multifunction printers. The abovementioned leases were excluded from right-of-use assets.
- C. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	Carrying amount	
	December 31, 2024	December 31, 2023
Buildings	\$ 29,320	\$ 29,624
Business vehicles	1,732	2,636
	<u>\$ 31,052</u>	<u>\$ 32,260</u>
	Depreciation charge	
	Years ended December 31,	
	2024	2023
Buildings	\$ 14,660	\$ 14,812
Business vehicles	904	904
	<u>\$ 15,564</u>	<u>\$ 15,716</u>

- D. For the years ended December 31, 2024 and 2023, the additions to right-of-use assets were \$14,356 and \$44,436, respectively.
- E. The information on profit and loss accounts relating to lease contracts is as follows:

	Years ended December 31,	
	2024	2023
<u>Items affecting profit or loss</u>		
Interest expense on lease liabilities	\$ 704	\$ 582
Expense on short-term lease contracts	3,174	3,038
Expense on leases of low-value assets	32	32

F. For the years ended December 31, 2024 and 2023, the Company's total cash outflow for leases were \$19,281 and \$19,144, respectively.

G. On December 22, 2023, by resolution of the Board of Directors, the Company has decided to re-sign the building lease agreement with Shin Zu Shing Co., Ltd. The lease period is from January 1, 2024 to December 31, 2026, and the Company will have the preferential lease right upon expiration. Since January 1, 2025, the monthly lease payments will be adjusted according to the price index based on the originally agreed lease contract. The estimated increase in right-of-use assets will be \$557.

(9) Investment property

A. In 2021, the Company purchased an office in Neihu, Taipei and leased it to LEGIUN Technology Co., Ltd.; the asset was recognized as investment property. The lease term is three years, with the option to extend the lease term. When exercising the lease renewal right, the lessee agrees to adjust the rent according to the market rent situation. At the end of the lease term, the lessee does not have the preferential right to purchase the property.

The above-mentioned lease expires in 2023 and is renewed for another five years.

B. Rental income from investment property and direct operating expenses arising from investment property are shown below:

	Years ended December 31,	
	2024	2023
Rental income from investment property	<u>\$ 1,160</u>	<u>\$ 1,160</u>
Direct operating expenses arising from the investment property that generated rental income during the year	<u>\$ 130</u>	<u>\$ 131</u>

The total amount of lease payments to be collected in the future from the leasing of the investment property is as follows:

	<u>Year ended December 31, 2024</u>	<u>Year ended December 31, 2023</u>
Within 1 year	\$ 1,218	\$ 1,218
1 - 2 years	1,218	1,218
2 - 5 years	<u>2,463</u>	<u>3,654</u>
	<u>\$ 4,872</u>	<u>\$ 6,090</u>

C. The fair value as of December 31, 2024 and 2023 were \$45,691 and \$45,820, respectively, which has not been evaluated by an independent evaluator and was measured only by the Company's management using a valuation model commonly used by market participants based on level 3 input values. The real estate transaction prices in the area have not changed significantly in 2024 and 2023, and the evaluation was based on the market evidence of similar real estate transaction prices.

(14) Pensions

A. Defined benefit pension plan

- (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the

following year, the Company will make contributions for the deficit by next March.

(b) The amounts recognized in the balance sheet are as follows:

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Present value of defined benefit obligations	(\$ 4,772)	(\$ 6,158)
Fair value of plan assets	<u>16,971</u>	<u>16,364</u>

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2024 and 2023 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

	Years ended December 31,	
	2024	2023
Discount rate	1.500%	1.125%
Future salary increases	3%	3%

- i. Future mortality rate was estimated based on the 6th Taiwan Standard Ordinary Experience Mortality Table.
- ii. Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	<u>Discount rate</u>		<u>Future salary increases</u>	
	<u>Increase 0.25%</u>	<u>Decrease 0.25%</u>	<u>Increase 0.25%</u>	<u>Decrease 0.25%</u>
<u>December 31, 2024</u>				
Effect on present value of defined benefit obligation	(\$ 86)	\$ 88	\$ 85	(\$ 84)
<u>December 31, 2023</u>				
Effect on present value of defined benefit obligation	(\$ 106)	\$ 109	\$ 105	(\$ 103)

- iii. The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.
 - iv. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.
- (f) The Company has acquired the approval from the Hsinchu County Government to suspend its contribution to the defined benefit pension plan for 2024 and 2023.
 - (g) As of December 31, 2024 and 2023, the weighted average duration of the retirement plan is 7.3 and 6.9 years, respectively.
 - (h) The company has a long-term employee benefits plan, under which employees are rewarded with a bonus, a certificate of appreciation, or a trophy upon completing every five years of service. For the employee benefits plan, the Company recognized pension costs of \$85 and \$420 for the years ended December 31, 2024 and 2023, respectively.
- B. Defined contribution pension plan
- (a) Effective July 1, 2005, the Company has established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
 - (b) The pension costs under the defined contribution pension plan of the Company for the years ended December 31, 2024 and 2023 were \$14,423 and \$12,894, respectively.

(15) Share capital

- A. As of December 31, 2024, the Company's authorized capital was \$2,000,000, consisting of 200,000 thousand shares of ordinary stock, and the paid-in capital was \$892,631 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

	<u>2024</u>	<u>2023</u>
At January 1	89,263	89,263
Treasury shares buyback	(<u>1,000</u>)	<u>-</u>
At December 31	<u>88,263</u>	<u>89,263</u>

B. Treasury shares

- (a) The Company's Board of Directors approved a share buyback program on December 22, 2023 to repurchase 1,000 thousand shares during the period from December 25, 2023 to February 23, 2024. The repurchase price range is between NT\$16.65 and NT\$35.35 per share. Details are summarized below:

		<u>December 31, 2024</u>	
<u>Name of company</u>		<u>Number of shares</u>	
<u>holding the shares</u>	<u>Reason for reacquisition</u>	<u>(In thousands)</u>	<u>Carrying amount</u>
The Company	To be reissued to employees	1,000	\$ 25,619

		<u>December 31, 2023</u>	
<u>Name of company</u>		<u>Number of shares</u>	
<u>holding the shares</u>	<u>Reason for reacquisition</u>	<u>(In thousands)</u>	<u>Carrying amount</u>
The Company	To be reissued to employees	-	\$ -

- (b) Pursuant to the R.O.C. Securities and Exchange Act, the number of shares bought back as treasury share should not exceed 10% of the number of the Company's issued and outstanding shares and the amount bought back should not exceed the sum of retained earnings, paid-in capital in excess of par value and realized capital surplus.
- (c) Pursuant to the R.O.C. Securities and Exchange Act, treasury shares should not be pledged as collateral and is not entitled to dividends before it is reissued.
- (d) Pursuant to the R.O.C. Securities and Exchange Act, treasury shares should be reissued to the employees within five years from the reacquisition date and shares not reissued within the five-year period are to be retired. Treasury shares to enhance the Company's credit rating and the stockholders' equity should be retired within six months of acquisition.

(16) Capital surplus

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Share premium	\$ 1,505,856	\$ 1,549,988
From business combinations	31,797	31,797
Treasury share transactions	76,571	76,571
Changes in ownership interests in subsidiaries	<u>7,906</u>	<u>7,906</u>
	<u>\$ 1,622,130</u>	<u>\$ 1,666,262</u>

- A. Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.
- B. On April 11, 2023, the company's board of directors resolved a cash distribution of \$62,484 from the capital surplus (\$0.7 per share).
- C. On April 9, 2024, the company's board of directors resolved a cash distribution of \$44,132 from the capital surplus (\$0.5 per share).

(17) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses, set aside 10% of the remaining amount as legal reserve, then set aside or reverse a special reserve according to relevant regulations when necessary. The remainder, if any, to be retained or to be appropriated shall be proposed by the Board of Directors and resolved by the shareholders at the shareholders' meeting. The Board of Directors is authorized to distribute all or part of the dividends and bonuses, capital surplus or legal reserve that should be distributed in cash by a resolution approved by more than half of the directors present at a meeting with the presence of more than two-thirds of the directors. Such provisions does not require approval by the shareholders.
- B. The Company's dividend policy is summarized below: as the Company is in the stable growth stage, the residual dividend policy is adopted taking into consideration the Company's future capital expenditure plans and the financial structure. According to the dividend policy adopted by the Board of Directors, at least 1% of the Company's distributable earnings as of the end of the period shall be appropriated as cash or stock dividends, of which not more than 60% shall be paid in stock.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their

share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.

(b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Order No. Financial-Supervisory-Securities-Corporate-1090150022, dated March 31, 2021, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.

E. Appropriation of earnings

(a) The appropriations of 2022 earnings had been resolved at the annual shareholders' meeting on May 26, 2023. Details are summarized below:

2022	
	Dividends per share

	<u>\$ 189,086</u>	<u>\$ 233,604</u>	<u>\$ 422,690</u>

A. As of December 31, 2024 and 2023, the Company had 377 employees, average. There were both 6 directors who have not served as employees.

B. (a) Average employee benefit expense in 2024 and 2023 were \$967 and \$902, respectively.

(b) Average employee salaries in 2024 and 2023 were \$803 and \$754, respectively. The change in the average employee salaries and wages adjustment was an increase of 6.50%.

- C. The Company has no supervisors' remuneration as it has set up an audit committee.
- D. The Company's compensation policy for directors, managers and employees is described as follows:

Director

The remuneration of directors shall be determined by the board of directors at the usual level of the trade, taking into account their participation in the operations of the Company and the value of their contributions.

Directors' remuneration: when the Company makes profits, it shall be paid to the director in accordance with the Company's Articles of Incorporation (not more than 3%).

Directors' attendance fee: payable to a director for the number of times he or she personally attends board meetings, compensation committees, audit committees and other functional committees.

Manager

The remuneration of the Company's managers shall be assessed by the remuneration committee and submitted to the board of directors for resolution based on their positions, contributions and the Company's business performance in that year.

Employee

To maintain overall pay competitiveness, the Company conducts annual pay surveys to measure the pay level in the market and take into account the Company's operational performance and future development. Implement the performance-oriented policy and give differentiated rewards according to individual performance to reward the contributions of colleagues.

(25) Employee benefit expense

- A. In accordance with the Articles of Incorporation of the Company, a ratio of profit before tax, before the distribution of employees' compensation and directors' remuneration, of the current year, after covering accumulated losses, shall be distributed as employees' compensation and directors' remuneration. The ratio shall not be lower than 8% for employees' compensation and shall not be higher than 3% for directors' remuneration. Employees' compensation may be paid in the form of shares or in cash, and employees from affiliated companies who meet certain conditions are entitled to the distribution.
- B. (a) For the year ended December 31, 2024, the Company had a net loss before income tax, therefore, the Company did not accrue employees' compensation and directors' remuneration at the end of reporting period.
- (b) For the year ended December 31, 2023, employees' compensation was accrued at \$5,020; directors' remuneration was accrued at \$1,506. The aforementioned amounts were recognized in salary expenses.
- (c) Employees' compensation and directors' remuneration for 2023 as resolved by the Board of Directors were in agreement with the amounts recognized in the 2023 financial statements. Information about employees' compensation and directors' remuneration of the

Company as resolved at the meeting of Board of Directors and Shareholders will be posted in the “Market Observation Post System” at the website of the Taiwan Stock Exchange.

(26) Income tax

A. Components of income tax benefit

	<u>Years ended December 31,</u>	
	<u>2024</u>	<u>2023</u>
Current tax:		
Current tax for the period	\$ 29,308	\$ 77,887

The rental income from the plant and office in Neihu, Taipei leased to the subsidiary is included in other income.

E. Lease transactions-lessee

(a) The Company leases a property from Shin Zu Shing Co., Ltd., with a lease term from January 1, 2023 to December 31, 2023. The monthly rental, management fees, and other expenses advanced by related parties are paid on a monthly basis. The lease agreement includes a priority right of renewal. Based on our medium-term operational planning period of 3 years, the right-of-use asset acquired amounts to \$44,436. The amount does not exceed the price assessed according to the "Regulations Governing the Acquisition and Disposal of Assets by Public Companies", which is \$46,657.

(b) On December 22, 2023, by resolution of the Board of Directors, the Company has decided to re-sign the building lease agreement with Shin Zu Shing Co., Ltd. The lease period is from January 1, 2024 to December 31, 2026, and the Company will have the preferential lease right upon expiration. The right-of-use assets increased by \$14,356. Increased to book value \$43,980. The amount does not exceed the price assessed according to the "Regulations Governing the Acquisition and Disposal of Assets by Public Companies", which is \$46,401.

(c) Right-of-use assets

A. Carrying amount

	December 31, 2024	December 31, 2023
Shin Zu Shing Co., Ltd.	\$ 29,320	\$ 29,624

B. Depreciation charge

	Year ended December 31, 2024	Year ended December 31, 2023
Shin Zu Shing Co., Ltd.	\$ 14,232	\$ 14,812

(d) Lease liabilities

A. Carrying amount

	December 31, 2024	December 31, 2023
Shin Zu Shing Co., Ltd.	\$ 29,725	\$ 29,836

B. Interest expense

	Year ended December 31, 2024	Year ended December 31, 2023
Shin Zu Shing Co., Ltd.	\$ 676	\$ 544

(e) Administrative expenses and disbursement fee

	Year ended December 31, 2024	Year ended December 31, 2023
Shin Zu Shing Co., Ltd.	\$ 3,115	\$ 2,903

F. Royalty income

	December 31, 2024	December 31, 2023
Subsidiary	\$ 32,160	\$ 31,171

G. Receivable from related parties

	December 31, 2024	December 31, 2023
Accounts receivable: Other related parties	\$ -	\$ 1,247
Accounts receivable: Subsidiaries	289	1,151
	<u>\$ 289</u>	<u>\$ 2,398</u>

H. Payables to related parties

	December 31, 2024	December 31, 2023
Accounts Payable:		
Subsidiaries	<u>\$ 8,027</u>	<u>\$ 14,892</u>
Other payables:		
Other related parties	\$ 217	\$ 219
Subsidiaries	<u>-</u>	<u>30</u>
	<u>\$ 217</u>	<u>\$ 249</u>

(a) In order to meet the needs of customers, the Company accepts orders from customers on behalf of the related companies, and then the related companies directly deliver the goods to customers after manufacturing, and bear the inventory risk and provide after-sales service.

(b) The other payables to other related parties pertains to accrued utilities expense.

I. Loans to /from related parties:

A. Ending balance

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
eBio International Inc.	<u>\$ 30,081</u>	<u>\$ -</u>

B. Interest revenues

	<u>Year ended December 31, 2024</u>	<u>Year ended December 31, 2023</u>
eBio Technology Inc.	\$ 441	\$ -
eBio International Inc.	<u>81</u>	<u>4</u>
	<u>\$ 522</u>	<u>\$ 4</u>

The loans to the subsidiary are repayable in full after one year and carry interest at 2.59% and 2.47% per annum for the years ended December 31, 2024, and 2023, respectively.

(3) Key management compensation

	<u>Year ended December 31,</u>	
	<u>2024</u>	<u>2023</u>
Short-term employee benefits	\$ 19,900	\$ 22,515
Post-employment benefits	<u>570</u>	<u>600</u>
	<u>\$ 20,470</u>	<u>\$ 23,115</u>

8. Pledged Assets

The Company's assets pledged as collateral are as follows:

	<u>Book value</u>		
<u>Pledged asset</u>	<u>December 31, 2024</u>	<u>December 31, 2023</u>	<u>Purpose</u>
Property, plant, and equipment			
Land	\$ 273,059	\$ 273,059	Bank secured borrowings
Buildings and structures	136,646	145,920	Bank secured borrowings
Other non-current assets			
Guarantee deposits paid	4,124	4,134	Rental deposit

9. Significant Contingent Liabilities and Unrecognized Contract Commitments

Commitments

As of December 31, 2024, the Company had opened unused letters of credit for importing inventories and equipment of \$1,784

10. Significant Disaster Loss

None.

11. Significant Events after the Balance Sheet Date

Please refer to Note 6. (8) G. for further details.

12. Other

(1) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. The capital structure of the Company consists of net debt (borrowings offset by cash and cash equivalents) and equity attributable to owners of the Company (comprising issued capital, reserves, retained earnings and other equity). The Company is not subject to any externally imposed capital requirements.

(2) Financial instruments

A. Financial instruments by category

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
<u>Financial assets</u>		
Financial assets mandatorily measured at fair value through profit or loss (current and non-current)	\$ 30,477	\$ 28,899
Financial assets at fair value through other comprehensive income	5,500	-
Financial assets at amortized cost		
Cash and cash equivalents	413,719	589,459
Accounts receivable, net	151,159	195,895
Accounts receivable-related parties	289	2,398
Other receivables	3,620	2,656
Other receivables-related parties	30,081	-
Guarantee deposits paid	4,124	4,134
	<u>\$ 669,050</u>	<u>\$ 823,441</u>

December 31, 2024 December 31, 2023

Financial liabilities

Financial liabilities mandatorily measured at fair value through profit or loss	\$	2,671	\$	-
Financial liabilities at amortized cost				
Short-term borrowings		45,000		45,000
Accounts payable		141,464		153,248
Accounts payable-related parties		8,027		14,892
Other payables		124,057		110,451
Other payables-related parties		217		249
Long-term borrowings (including current portion)		200,000		250,000
Guarantee deposits received		800		800
	\$	<u>522,236</u>	\$	<u>574,640</u>
Lease liabilities (current and non-current)	\$	<u>31,488</u>	\$	<u>32,504</u>

B. Financial risk management policies

- (a) The Company's major financial instruments included equity investments, accounts receivable, accounts payable, and bank borrowings. The Company's Corporate Treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (including currency risk and interest rate risk), credit risk and liquidity risk.
- (b) The Company sought to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives was governed by the Company's policies approved by the board of directors, which provided written principles on foreign exchange risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits was reviewed by the internal auditors on a continuous basis. The Company did not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Company engages in sales and purchases denominated in foreign currencies and are exposed to exchange rate fluctuations. The Company manages exchange rate risks within the scope permitted by the policy, using forward foreign exchange contracts to manage

risks.

- ii. The Company's businesses involve some non-functional currency operations (the Company's functional currency: NTD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

December 31, 2024			
(Foreign currency: functional currency)	Foreign currency		Book value
	amount		
	<u>(In thousands)</u>	<u>Exchange rate</u>	<u>(NTD)</u>
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	\$ 6,758	32.7850	\$ 221,561
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD:NTD	489	30.7850	16,032
December 31, 2023			
(Foreign currency: functional currency)	Foreign currency		Book value
	amount		
	<u>(In thousands)</u>	<u>Exchange rate</u>	<u>(NTD)</u>
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	\$ 13,165	30.7050	\$ 404,231
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD:NTD	1,100	30.7050	33,776

Above information excludes unrealized profit or loss from transactions with subsidiaries.

- iii. Total exchange gains (losses), including realized and unrealized, arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2024 and 2023, amounted to \$16,985 and (\$10,383), respectively.

iv. Analysis of foreign currency market risk arising from significant foreign exchange variation:

Year ended December 31, 2024				
Sensitivity analysis				
	Degree of variation	Effect on profit or loss	Effect on other comprehensive income	
(Foreign currency: functional currency)				
<u>Financial assets</u>				
<u>Monetary items</u>				
USD:NTD	1%	\$ 2,216	\$	-
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD:NTD	1%	160	\$	-

Year ended December 31, 2023				
Sensitivity analysis				
	Degree of variation	Effect on profit or loss	Effect on other comprehensive income	
(Foreign currency: functional currency)				
<u>Financial assets</u>				
<u>Monetary items</u>				
USD:NTD	1%	\$ 4,042	\$	-
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD:NTD	1%	338	\$	-

Cash flow and fair value interest rate risk

- i. The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During 2024 and 2023, the Company's borrowings at variable rate were mainly denominated in New Taiwan dollars.
- ii. If the borrowing interest rate of New Taiwan dollars had increased/decreased by 4 basis points with all other variables held constant, profit, net of tax for the years ended December 31, 2024 and 2023 would have increased/decreased by \$1,600 and \$2,000, respectively. The main factor is that changes in interest expense result from floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. As at the end of the reporting period, the Company's maximum exposure to credit risk which will cause a financial loss to the Company due to default by the counterparties and financial guarantees provided by the Company arises from:
 - (i) The carrying amount of the respective recognized financial assets as stated in the balance sheets;
 - (ii) The amount of contingent liabilities in relation to financial guarantee issued by the Company.
- ii. In order to mitigate the credit risk, the Company will conduct credit rating for the transaction object and obtain sufficient security if necessary to mitigate the risk of financial loss due to default. If such information is not available, the Company will use other publicly available financial information and mutual transaction records to rate key customers. The Company will continue to monitor the credit risk and the credit rating of the counterparty through the determination of the credit line and the approval of the credit line. In addition, the Company reviews the recoverable amounts of receivables individually at the balance sheet date to ensure that appropriate impairment losses have been provided for unrecoverable receivables. Accordingly, the Company's management believes that the Company's credit risk has been significantly reduced.
- iii. The Company adopts following assumption under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition: If the contract payments were past due over 90 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- iv. In line with credit risk management procedure, when there is evidence that the counterparty faces serious financial difficulties and the Company cannot reasonably expect to recover the amount, for example, the counterparty is in liquidation, the Company considers that the counterparty has signs of default.
- v. The Company wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Company will continue executing the recourse procedures to secure their rights.
- vi. The Company applies the modified approach using a provision matrix to estimate expected credit loss under the provision matrix basis. Based on the Company's historical experience, there is no significant difference in the loss patterns among different customer groups. The provision matrix does not further differentiate customer groups, and only sets the expected credit loss rate based on the number of days overdue for receivable, except for individual cases that need to be evaluated separately.
- vii. The Company used the forecast ability to adjust historical and timely information to assess the default possibility of accounts receivable. On December 31, 2024 and 2023,

the provision matrix is as follows:

<u>December 31, 2024</u>	<u>Expected loss rate</u>	<u>Total book value</u>	<u>Loss allowance</u>
Not past due	0%	\$ 144,587	\$ -
Up to 90 days	0%	6,572	-
Over 91 days	100%	<u>735</u>	<u>735</u>
		<u>\$ 151,894</u>	<u>\$ 735</u>
<u>December 31, 2023</u>	<u>Expected loss rate</u>	<u>Total book value</u>	<u>Loss allowance</u>
Not past due	0%	\$ 181,108	\$ -
Up to 90 days	0%	14,787	-
Over 91 days	100%	<u>550</u>	<u>550</u>
		<u>\$ 196,445</u>	<u>\$ 550</u>

viii. Movements in relation to the Company applying the modified approach to provide loss allowance for accounts receivable are as follows:

	<u>2024</u>	<u>2023</u>
At January 1	\$ 550	\$ -
Provision for impairment	<u>185</u>	<u>550</u>
At December 31	<u>\$ 735</u>	<u>\$ 550</u>

(c) Liquidity risk

i. Cash flow forecasting is performed in the operating entities of the Company and aggregated by the Company's Corporate Treasury function. The Company's Corporate Treasury function monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Company's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets and external regulatory or legal requirements.

ii. The Company has the following undrawn borrowing facilities:

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Floating rate:		
Expiring within one year	\$ 1,306,786	\$ 1,373,129
Expiring beyond one year	-	-

iii. The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
<u>December 31, 2024</u>				
<u>Non-derivative financial liabilities</u>				
Short-term borrowings	\$ 45,036	\$ -	\$ -	\$ -
Accounts payable	141,464	-	-	-
Accounts payable-related parties	8,027	-	-	-
Other payables	124,057	-	-	-
Other payables-related parties	217	-	-	-
Lease liabilities	16,075	15,997	-	-
Long-term borrowings (including current portion)	53,940	53,940	107,858	-
Guarantee deposits received	800	-	-	-
<u>Derivative financial liabilities</u>				
Forward foreign exchange contracts	\$ 2,671	-	-	-

	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
<u>December 31, 2023</u>				
<u>Non-derivative financial liabilities</u>				
Short-term borrowings	\$ 45,068	\$ -	\$ -	\$ -
Accounts payable	153,248	-	-	-
Accounts payable-related parties	14,892	-	-	-
Other payables	110,451	-	-	-
Other payables-related parties	249	-	-	-
Lease liabilities	16,074	16,074	854	-
Long-term borrowings (including current portion)	54,676	54,625	163,862	-
Guarantee deposits received	800	-	-	-

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Company has no related investment.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Company's investment in derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Company's investment in equity investment without active market is included in Level 3.

- B. Information relating to investments accounted for under equity method and investment property is provided in Note 6(6) and Note 6(9).
- C. Except for those listed in the table below, the carrying amounts of cash and cash equivalents, accounts receivable, net (including related parties), other receivables (including related parties), guarantee deposits paid, short-term borrowings, accounts payable (including related parties), other payables (including related parties), lease liabilities, long-term borrowings (including current portion), and guarantee deposits received are approximate to their fair values.
- D. The related information on financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:
- (a) The related information on the nature of the assets and liabilities is as follows:

<u>December 31, 2024</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through profit or loss				
Private equity fund	\$ -	\$ -	\$ 30,477	\$ 30,477
Financial assets at fair value through other comprehensive income				
Equity instruments	-	-	5,500	5,500
	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 35,977</u>	<u>\$ 35,977</u>
Financial liabilities at fair value through profit or loss				
Forward foreign exchange contracts	<u>\$ -</u>	<u>\$ 2,671</u>	<u>\$ -</u>	<u>\$ 2,671</u>
<u>December 31, 2023</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through profit or loss				
Forward foreign exchange contracts	\$ -	\$ 3,796	\$ -	\$ 3,796
Private equity fund	-	-	25,103	25,103
	<u>\$ -</u>	<u>\$ 3,796</u>	<u>\$ 25,103</u>	<u>\$ 28,899</u>

- (b) The methods and assumptions the Company used to measure fair value are as follows:

- i. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date.
 - ii. When assessing non-standard and low-complexity financial instruments, for example, interest rate swap contracts and foreign exchange swap contracts, the Company adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
 - iii. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.
 - iv. The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Company's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Company's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- E. For the years ended December 31, 2024 and 2023, there was no transfer between Level 1 and Level 2.
- F. The following chart is the movement of Level 3 for the years ended December 31, 2024 and 2023:

	Equity instrument	
	2024	2023
At January 1	\$ 25,103	\$ 12,460
Recognized in other comprehensive income	-	7,906
Recognized in profit or loss	(3,626)	3,643
Acquired during the period	14,500	9,000
Disposal during the period	-	(7,906)
At December 31	<u>\$ 35,977</u>	<u>\$ 25,103</u>

- G. The transfer-out amount from Level 3 was \$0 for the years ended December 31, 2024, and 2023, respectively.
- H. Investing segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value. Investment segment set up valuation policies, valuation processes and rules for measuring fair value of financial instruments and ensure compliance with the related requirements in IFRS.
- I. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	<u>December 31, 2024</u>	<u>Valuation technique</u>	<u>Significant unobservable input</u>	<u>Range (weighted average)</u>	<u>Relationship of inputs to fair value</u>
Non-derivative equity instrument:					
Unlisted shares	\$ 5,500	Net asset value	Not applicable	Not applicable	The higher the net asset value, the higher the fair value.
Private equity fund	30,477	Net asset value	Not applicable	Not applicable	The higher the net asset value, the higher the fair value.
	<u>December 31, 2023</u>	<u>Valuation technique</u>	<u>Significant unobservable input</u>	<u>Range (weighted average)</u>	<u>Relationship of inputs to fair value</u>
Non-derivative equity instrument:					
Private equity fund	\$ 25,103	Net asset value	Not applicable	Not applicable	The higher the net asset value, the higher the fair value.

13. Supplementary Disclosures

(1) Significant transactions information

- A. Loans to others: Refer to table 1.
- B. Provision of endorsements and guarantees to others: Refer to table 2.
- C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Refer to table 3.
- D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: None.
- E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: None.
- H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: None.
- I. Trading in derivative instruments undertaken during the reporting periods: Refer to Notes 6(2), 6(22) and 12(2).
- J. Significant inter-company transactions during the reporting period: None.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Refer to table 4.

(3) Information on investments in Mainland China

- A. Basic information: Refer to table 5.
- B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: None.

(4) Major shareholders information

Major shareholders information: Refer to table 6.

14. Segment Information

None.

Company name	Accumulated Outward Remittance for Investments in Mainland China as of December 31, 2024	Investment Amount Authorised by the Investment Commission, MOEA	Upper Limit on the Amount of Investments Stipulated by the Investment Commission, MOEA (Note 3)
The Company	\$ 696,453 (USD21,500)	\$ 862,275 (USD28,801)	\$ 1,713,334

Note 1: Investment methods are classified into the following three categories; fill in the number of category each case belongs to:

- (1) Directly invest in a company in Mainland China.
- (2) Through investing in an existing company in the third area, which then invested in the investee in Mainland China.
 - A. Invested through Jochu Investment Ltd.
 - B. Invested 66.67% by Jochu International (Cayman) Ltd. and 33.33% by Suzhou Zhou Qiao Precision Metal Co., Ltd., totaling 100%.
- (3) Others

Note 2: In the 'Investment income (loss) recognised by the Company for the year ended December 31, 2024' column:

- (1) It should be indicated if the investee was still in the incorporation arrangements and has not yet generated any profit during this period.
- (2) Indicate the basis for investment income (loss) recognition in the number of one of the following three categories:
 - A. The financial statements were audited by international accounting firm which has cooperative relationship with accounting firm in R.O.C.
 - B. The financial statements were audited by R.O.C. parent company's CPA.
 - C. Others.

Note 3: According to the new regulations issued by the Investment Review Committee of the Ministry of Economic Affairs in August 2009, the calculation method of the investment limit for the mainland area is the net value or 60% of the combined net value, whichever is higher.

JOCHU TECHNOLOGY CO., LTD. AND SUBSIDIARIES

Major shareholders information

December 31, 2024

Table 6

Name of major shareholders	Shares		Ownership (%)
	Number of shares held (Ordinary share)	Number of shares held (preferred share)	
Heng Xing Investment Co., Ltd.	9,124,000	-	10.22%

Note 1: The information of major shareholders presented in this table is provided by the Taiwan Depository & Clearing Corporation based on the number of ordinary shares and preferred shares held by shareholders with ownership of 5% or greater, that have been issued without physical registration (included treasury shares) by the Group as of the last business day for the current quarter.

The share capital in the consolidated financial statements may differ from the actual number of shares that have been issued without physical registration because of different preparation basis.

Note 2: If a shareholder delivers their shareholdings to the trust, the above information will be disclosed by the individual trustee who opened the trust account. For shareholders who declare insider shareholdings with ownership greater than 10% in accordance with Securities and Exchange Act, the shareholdings include shares held by shareholders and those delivered to the trust over which shareholders have rights to determine the use of trust property. For information relating to insider shareholding declaration, refer to Market Observation Post System.

Note 3: The principle of preparation of this table is to calculate the distribution of the balance of each credit transaction with reference to the roster of securities owners whose transfer has been suspended by the shareholders' temporary meeting (the securities lending will not be replenished).

Note 4: Shareholding rate (%) = Number of shares held / Total number of shares that have been issued without physical registration.

Note 5: Total number of shares that have been issued without physical registration (including treasury shares) is 89,263,150 shares = 89,263,150 (Ordinary share)+ 0 (Preferred share).
